How to Create a Guest User Profile

To balance the need for cardholder privacy with the desire of many students and parents to have shared account access, the Southeastern 1Card Program has created the "**Guest User**" feature. This gives cardholders the ability to grant account access to another individual, usually a parent, so that value can easily be added to a Southeastern 1Card Cash account. Cardholders select the level of guest account access privileges by choosing one, two, or all three of the following:

- **Add Value & Manage Payment Methods** - Guests can store a debit/credit card in the secure account center to make it easier to add value or create a Recurring Allowance to automatically transfer funds to a Southeastern 1Card Cash account on a pre-determined schedule.
- **View Account Balances** - Guests can see available balance.
- **View Account Transaction Activity** - Guests can see transaction activity.

To set up a Guest User, cardholders must first register their own Southeastern 1Card Cash account. For instructions on how to register a Southeastern 1Card Cash account, go to www.southeastern1card.com.

1. Visit www.southeastern1card.com and click on "**Login/Register**" in the upper right.
2. **Log In** to your Southeastern 1Card Cash account using your Username and Password.
3. On the Left Menu, click on "**My Profile.**"
4. Under the My Profile Menu, click on "**Guest Users.**"
5. On Page, click on "**Add New.**"
6. On Page, under "**My Authorized Guests,**" complete form and choose Account Access Privileges.
7. Click "**Submit.**"
8. **Congratulations!** You have successfully added a Guest User!

If you have any questions, please contact the Southeastern 1Card Service Center at **1-888-224-0931**, Monday through Friday between 8 a.m. and 6 p.m. EST or via email at mycard@southeastern1card.com.
